## Full of surprises

EVA is full of surprises. EVA embraces, protects and ensures a high level of comfort. The innovative use of textile provides the opportunity to swing and recline fully in a chair that appears static. The pouf has a room for storage and can turn into a small table. Anderssen & Voll tell of a traditional Norwegian log chair as the inspiration for EVA. And yes, EVA is a Norwegian fairy tale. It's all about Norwegian design and locally produced furniture of high quality and comfort.
