

ALBERTA / SOFA

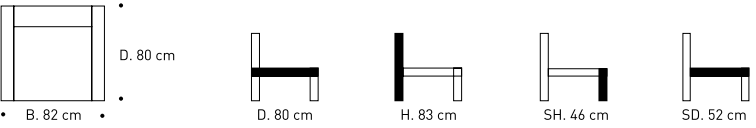

Siden modellen Alberta ble tegnet av interiørarkitekt Einar Egenes i 1981 har den vært en suksess. Den blir fortsatt ofte foretrukket av kunder som vil ha den beste sittekomforten og en enkel tidløs form. I tillegg til sofaer finnes lav stol og ørelappstol. Vendbare puter med avtagbare trekk gjør levetiden til produktet ekstra lang.

English Alberta has been a success ever since the interior architect Einar Egenes designed this model in 1981. It continues to be a popular choice for customers who would like to enjoy both the best sitting comfort and a simple timeless form. In addition to the sofa, a low chair and a wing chair are available. The reversible cushions with removable covers give an additional boost to the product's service life.
