

Mono
by Anderssen & Voll

Echo of architecture

MONO is a sofa that in all its simplicity provides surprising comfort. MONO looks like a padded bench, but feels like a proper sofa. Hidden padding and a flexible back provide a surprisingly high level of comfort. The slender and strict language of MONO is like an echo of the architecture. The neat size and the light expression allow MONO to fit almost anywhere, and the seating height makes MONO highly suitable for the dining table.

See page 111 for complete specifications

Mono

Design Anderssen & Voll

MONO is available in 2- and 3-seater. Hidden padding and a flexible back provide unexpected comfort due to the sofa's slender expression.
